TOP 5 ROUTES: MEMBERS

TOP 5 ROUTES: CASUAL RIDERS

🔍 KEY ANALYTICAL INSIGHTS

1. Volume & Seasonality

- Members generate **64% of all rides** and remain resilient during winter.
- Casual riders (**36%**) show a sharp summer peak with winter usage dropping nearly to zero.

3. Days of Week

- On weekdays, members lead by a **2x margin**.
- On weekends, the gap narrows; casual riders average **more trips** per weekend day than per weekday.

5. Geography & Route Patterns

- **Members (A → B)**: Clear point-to-point routes (home-work, transit hubs). Utility commuting.
- **Casual (A → A)**: Round-trip recreational rides along parks and waterfronts (Streeter Dr, Millennium Park). Leisure scenario.

2. Ride Duration

- Casual riders ride **1.5–2x longer** (19–22 min vs. 11–12 min for members).
- Member trip duration remains consistent regardless of time or day.

4. Time of Day

- Afternoon is peak time for **both groups** (3.1M vs. 1.9M).
- Members are active throughout the day; casual riders show **разовых a morning dip (0.8M)**.

🎯 MARKETING RECOMMENDATIONS

📅 1. Flexible Membership Passes

Introduce a **"Weekend Pass"** and **"Summer Pass"** to remove purchase barriers for users who don't ride in winter or prefer weekends.

Casual Traffic Conversion

🕒 2. Seasonal Targeting & Savings Triggers

Launch a spring campaign ("3 summer months cover the whole year") for Casuals and send push alerts with personal savings calculations during peak activity.

Targeted Retargeting

⚡ 3. Dynamic Pricing for Casual Passes:

Introduce peak-hour and per-minute surcharges on single rides to make the fixed Annual Pass significantly more attractive.

Membership Value Growth
